Message from the Principal

As Semester 1 comes to an end it is a good time to reflect on our educational experiences of the last six months. When we identify not only our strengths, but also our weaknesses, we can endeavour to make sure, we, as Teachers are on track for providing the best learning opportunities for our students and that your children, as students, are making the most of their educational opportunities as we head towards Semester 2.

It has been exciting to see Kinder develop in confidence and grow in their capabilities over the last six months. As the days go by they are becoming masters of their school environment and their school day. It has been pleasing to see senior students take on leadership roles demonstrating responsibility and respect and modelling positive behaviours in their interactions with others and in their voluntary roles that they perform daily.

Regards,

Karen Payne
Relieving Principal
